City of Concord, New Hampshire

FINANCE DEPARTMENT

41 GREEN STREET, CONCORD, NH 03301 (603) 225-8560

November 21, 2016

To the Honorable Mayor, Members of the City Council, and Citizens of the City of Concord:

The Concord Finance Department is pleased to submit the Comprehensive Annual Financial Report (CAFR) for the City of Concord, New Hampshire for the Fiscal Year ending June 30, 2016.

This report is published to provide citizens, City Council, investors and other interested parties with detailed information regarding the financial position of the City. City Management is responsible for the accuracy of the data, and the completeness and fairness of this report, including all disclosures and schedules.

To the best of our knowledge and belief, the following data is accurate in all material respects and is reported in a manner designed to fairly present the City's financial position and the results of operations of the various Funds of the City. The accompanying disclosures are necessary to enable the reader to gain the maximum understanding of the City's financial activities.

The Report

The CAFR is presented in three main sections: Introductory, Financial and Statistical. The Introductory Section includes the transmittal letter and the Government Finance Officers Association of the United States and Canada's Certificate of Achievement for Excellence in Financial Reporting Award.

The Financial Section contains the City's basic financial statements as required under the Governmental Accounting Standards Board's (GASB) Statement No. 34, and is in accordance with Generally Accepted Accounting Principles. It also includes the auditors' opinion, management's discussion and analysis (MD&A) report, notes to financial statements, combining and individual financial statements, and schedules for the City's Funds.

The MD&A report is designed to be used in conjunction with this transmittal letter and can be found after the independent auditor's report.

The Statistical Section includes financial and demographic information on a ten-year historical basis.

This CAFR does not report on the Funds of the Concord School District, Merrimack Valley School District or the County of Merrimack. These governmental units are independent of the City and do not meet established reporting entity criteria for inclusion in this report.

Profile of the Government

The City of Concord is located in Merrimack County, approximately 70 miles north of Boston, Massachusetts, on the Merrimack River in South Central New Hampshire. According to the U.S. Census Bureau, the City has an estimated population of 42,620 as of July 1, 2015, a 0.18% decrease over the last official census as of April 1, 2010 number of 42,695, and occupies a land area of 64 square miles.

Concord was originally settled in 1727, incorporated in 1765, and established as the state capital in 1808. Government is by an elected 15-member council and an appointed City Manager. The City also serves as the Merrimack County seat and Federal Court seat. Two separate school districts serve the City - the Concord School District and the Merrimack Valley School District.

Policymaking and legislative authority are vested by City Charter in the 15-member Council. Under the Charter, originally adopted in 1853, and most recently amended in 2012, the appointed City Manager is solely responsible for carrying out the policies and ordinances of the City Council. The Council is elected on a non-partisan basis. Ten ward councilors, and the mayor, are elected every two years. The four remaining "at-large" councilors are elected to staggered 4-year terms, two every two years. The current mayor is former City Councilor James P. Bouley who was first elected mayor in November 2007. In November 2015 he was re-elected for his fifth consecutive term. Thomas J. Aspell, Jr., the City Manager, was appointed in April 2006. The City has had four City Managers since 1978. The City Manager, pursuant to the City Charter, has all appointive and dismissal powers for paid employees of the City. Appointive authority for boards and commissions is shared between the Mayor, City Council and City Manager.

In addition to serving as the seat of state and county government, Concord hosts several federal agencies, and is the only full-service local government between Laconia - 25 miles to the north, Manchester - 20 miles to the south, Keene - 54 miles to the west, and Portsmouth - 50 miles to the east. The City provides and annually appropriates for the following services: water treatment and supply; wastewater collection and treatment; solid waste collection and recycling; highway construction and maintenance, including snow plowing, storm sewer system and related infrastructure maintenance and construction; prosecutorial, police and fire protective services (including advanced life support); airport, parks, golf course and ice arena; library and recreational facilities and programs; human services; planning, economic and community development, and code enforcement services.

Local Economy

Compared to other cities in New Hampshire, New England and the Nation, Concord has comparably low unemployment. As reported by the New Hampshire Department of Employment Security, Concord's unemployment rate as of June 2016 was 2.4%. This compares favorably to New Hampshire's rate of 2.8% and to the United States rate of 5.1%. Concord's rate also remains the lowest among the top three New Hampshire cities with Manchester at 3.1% and Nashua at 3.3%. Concord's unemployment rates have remained lower than the State since 1992 except for the months of March, April and June, 2005.

The assessed value of taxable property as of April 1, 2015 increased overall by 2.39% compared to April 1, 2014. The cumulative total residential, manufactured homes, and condominiums increased slightly in assessed value. The average assessed value of a single family home in Concord as of April 1, 2015 was 228,355, up slightly from \$222,700 the year before.

Tax collections percentage as of June 30, 2016 for the 2015 Tax Year was 98.5%, slightly lower than the previous year. Total tax delinquencies for all years were stated at \$2.6 million, up \$0.5 million from the previous year. Vigorous collection efforts by the Tax Collector's Office have resulted in no material increases in the number of properties to which the City takes title through tax deeds. Anticipating increased delinquencies the Collector's Office initiated a significant outreach, communication and visitation program to affect this result. The City Council's Number One Fiscal Goal for cash management is directed towards a targeted property tax collection program which is aimed at maintaining high collection rates.

The City continues to work with existing businesses to maintain and increase their workforce, and has several economic development initiatives underway. During Fiscal Year 2016, the Mayor and Council issued a call to the Greater Concord Chamber of Commerce and the City's Economic Development Advisory Council to provide strategic recommendations that the City should consider to bolster economic development. The most prominent of these measures was the creation of an Economic Development Director position which was subsequently funded as part of the FY 17 budget.

In December 2014, the City approved an RSA 79-E Community Tax Relief Incentive application for renovation of the former Vegas Block, now known as the "Remi Block". The developer who acquired the property on July 22, 2014, is currently renovating the 34,000 SF building into 20 market rate apartments with ground floor commercial space. The total cost for the project is approximately 2.4 million. The project will be completed in March 2017.

Another key economic development initiative that continued during Fiscal Year 2016 was the \$14 million Downtown Complete Streets Project. The goal of this project is to make downtown a more vibrant, attractive place for economic development activity, including redevelopment of vacant upper stories and construction of market rate housing. Key features of the project include wider sidewalks, improved crosswalks,

ADA improvements to 15 +/- properties, public art, as well as comprehensive street-scape improvements. The project will be completed in Fall 2016.

Long-term Financial Planning

The City Finance Department presents regular financial reports to elected officials and management staff. In addition to these reports, annually and/or as part of the budget process, the City prepares a five year General Fund operating pro forma and tax rate projection, a twenty year Capital Improvement Plan and a pro forma for each enterprise and major special revenue fund.

Also, as part of the annual budget process, the City reviews all General Fund revenues to determine budgetary needs. Enterprise and special revenue funds are reviewed for competitiveness and support of operations. Most enterprise/special revenue funds are fully self-supporting and provide administrative overhead payments to the General Fund. Exceptions are the Solid Waste Fund which received general tax base support as part of its planned operation and the Golf and Arena Funds which received general fund support for their Fiscal Year 2016 operations.

Financial Position

The City Council has adopted a General Fund balanced budget every year since Fiscal Year 2010, with the exception of Fiscal Year 2012. The Fiscal Year 2012 Budget was adopted using \$300,000 from prior year surplus to help offset the significant funding changes that were occurring with the State Retirement System. Other than Fiscal Year 2014, Fiscal Years 2010 through 2015 reported surpluses ranging from \$953,000 to \$1.5 million. The Fiscal Year 2016 surplus is \$549,668.

The total General Fund Unassigned Fund Balance increased to \$10.7 million after City management assigned \$930,000 which is anticipated to be transferred to trust fund reserve accounts in Fiscal Year 2017. The \$10.7 million Unassigned Fund Balance represents a \$565,000 increase over Fiscal Year 2015. The purposes of the Assigned Fund Balance are for transfers to Highway Paving Reserve (\$450,000), Equipment Reserve (\$50,000), Office Furniture and Equipment (\$30,000), and Community Improvement Reserve (\$400,000).

OPEB Action

The City is in compliance with Government Accounting Standards Board (GASB) Statement No. 45, as reported in Note 16 of this CAFR. As of June 30, 2016 the Unfunded Actuarial Accrued Liability (UAAL) was \$34.2 million, an \$11.3 million decrease from 2015. This was due primarily to a reduction in the cost of the City's Medicare Enhance Plan.

Efforts to reduce this liability will be ongoing with continued benefit management and financing alternatives. To date, the City Council has approved the transfer of \$500,000

to an OPEB reserve trust; \$300,000 from 2009 surplus and \$200,000 from 2011 surplus. No transfer is anticipated during Fiscal Year 2017.

GASB Statement No. 68

In Fiscal Year 2015 the City implemented the provisions of GASB Statement No. 68, Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27, with respect to the State of New Hampshire Retirement System (NHRS).

Relevant Financial Policies

Goals

Introduced in 1996, the City Council adopted a Fiscal Policy Statement which is a series of 31 goals to help guide the financial direction and management of the City. These goals are regularly reviewed and updated when necessary.

The goals address the topics of: Accounting, Auditing and Financial Reporting, Budgetary and Financial Management, Capital Improvements, Cash Management, Debt Management, Employee Compensation and Benefits, Enterprise/Special Revenue & Other Funds Management, Municipal Services Expenditures and Revenues and Tax Rate Management. In addition to the cash management goal cited above; another goal that stands out is Goal F1 under Debt Management that limits debt service to 10% of total expenditures. For Fiscal Year 2016 this amount was 10.0%.

In Fiscal Year 2013, the City adopted a new Fund Balance, Reserves and CIP Spending Priority Policy. The Policy was established following discussions with the City's outside auditors, receipt of their subsequent Management Letter recommendation and in conjunction with GASB Statement #54.

Section IV(A)(1)(a) of the Policy requires that the City achieve a General Fund Unassigned Fund Balance of 18.5% of expenditures by the end of Fiscal Year 2017. For Fiscal Year ending June 30, 2016 the Unassigned Fund Balance was 19.5%.

Credit Rating and Debt Limit

As of June 2016 Standard and Poor's Rating Group affirmed the city's bond rating of AA+ in conjunction with a \$9.2 million General Obligation bond offering and affirmed the AA+ rating on the City's \$82 million of outstanding parity debt.

Financial Structure and Management

In accordance with the *City Charter and Code of Ordinances*, the Finance-Accounting Office is responsible for establishing an accounting and internal control structure designed to ensure that the City's assets are protected from loss, theft, and misuse. It

also ensures that adequate accounting information is maintained and reported in conformity with GAAP. The internal control structure is designed to provide reasonable assurances that these objectives are attained. In providing these reasonable assurances, it is recognized that the cost of control should not exceed the benefits and the valuation of costs and benefits requires management's judgment.

Major Initiatives

The Fiscal Year 2016 budget was adopted by the City Council with several major initiatives including funding for the Exit 16 Mountain Road/Shawmut Avenue round-about final design and construction phase, City Hall renovations, Rolfe Park pool replacement, City wide community center at Keach Park, Engine 5 apparatus replacement, an increase to the annual highway improvement paving program, water main construction and replacements, water treatment plant improvements and wastewater treatment equipment and plant improvements.

Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) has awarded twenty-one consecutive Certificates of Achievement for Excellence in Financial Reporting to the City of Concord, NH for its CAFR beginning with the fiscal year ended December 31, 1995, through June 30, 2015 including the six-month transitional fiscal period ending June 30, 1996. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports.

A Certificate of Achievement is valid for a period of one year only. The City believes this current CAFR conforms to the Certificate of Achievement program requirements and will be submitted to GFOA.

The timely preparation of this year's CAFR was made possible by the dedicated services provided by the City's Finance Department – Accounting Office staff. We also extend a sincere thanks and appreciation to Melanson Heath for their work in conducting the City's audit and preparing this report. Additionally, Administration thanks the Mayor, Members of the City Council, and Fiscal Policy Advisory Committee for their leadership, and commitment of transparency for the financial operations of the City. Without their diligence, hard work, professionalism and support, this report would not meet such high standards.

Other Information

Although state statutes do not require an annual audit, the City has continually produced an independently audited set of Financial Statements since the 1920s. Presently, the firm of Melanson Heath of Nashua, New Hampshire, conducts the annual audit for the City. In addition, the audit was designed to meet the requirements of Title 2 CFR Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit*

Requirements of Federal Awards (the Uniform Guidance), as applicable. The auditor's report related specifically to the single audit section is included in a separately issued single audit report.

The City invites you to visit our web site at www.concordnh.gov, where this CAFR is expected to be prominently displayed by December 2016. Also displayed are previous CAFRs and other summary financial information.

Sincerely,

Thomas J. Aspell City Manager

INDEPENDENT AUDITORS' REPORT

To the Mayor and City Council City of Concord, New Hampshire Additional Offices: Andover, MA Greenfield, MA Manchester, NH Ellsworth, ME

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Concord, New Hampshire, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the Table of Contents.

Management's Responsibility for the Financial Statements

The City's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opin-

ion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Concord, New Hampshire, as of June 30, 2016, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budget-ary comparison for the general fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that Management's Discussion and Analysis, the Schedule of OPEB Funding Progress, the Schedule of Proportionate Share of Net Pension Liability, and the Schedule of Pension Contributions be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with evidence sufficient to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The accompanying supplementary information appearing on pages 84 through 127 is presented

for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The Introductory and Statistical sections are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 21, 2016 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering City's internal control over financial reporting and compliance.

November 21, 2016

Melanson Heath

MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the City of Concord, we offer readers of the City of Concord this narrative overview and analysis of the financial activities of the City for the fiscal year ended June 30, 2016. This section should be read in conjunction with the Letter of Transmittal beginning on page 1.

A. OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the basic financial statements. The basic financial statements are comprised of three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

<u>Government-wide financial statements</u> The government-wide financial statements are designed to provide readers with a broad overview of our finances in a manner similar to a private-sector business.

The Statement of Net Position presents information on all assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position is improving or deteriorating.

The Statement of Activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities include general government, public safety, general services, community development, leisure and information services, and human services. The business-type activities include water, sewer, solid waste, golf, and arena activities.

<u>Fund financial statements</u> A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Fund accounting is used to ensure and demonstrate compliance with finance-related legal requirements. All of the funds can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

Governmental funds Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund Statement of Revenues, Expenditures and Changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Information is presented separately in the governmental fund balance sheet and in the governmental fund Statement of Revenues, Expenditures and Changes in Fund Balances for the general fund and major capital project fund (post 2008), which are considered to be major funds. Data from the other governmental funds are combined into a single aggregated presentation.

An annual appropriated budget is adopted for the general fund and certain non-major governmental (special revenue) funds. Budgetary comparison statements have been provided for the general fund to demonstrate compliance with budgets.

<u>Proprietary funds</u> Proprietary funds are maintained as follows:

Proprietary funds provide the same type of information as the business-type activities reported in the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the water, sewer, solid waste, golf and arena operations. The water, sewer, and solid waste funds are considered major funds.

<u>Fiduciary funds</u> Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

<u>Notes to financial statements</u> The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

<u>Other information</u> In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary infor-

mation which is required to be disclosed by accounting principles generally accepted in the United States of America.

B. FINANCIAL HIGHLIGHTS

- As of the close of the current fiscal year, the total of assets exceeded liabilities by \$186,623,448 (i.e., net position), a change of \$13,716,930 in comparison to the prior year.
- As of the close of the current fiscal year, governmental funds reported combined ending fund balances of \$41,858,738, a change of \$(3,421,891) in comparison to the prior year.
- At the end of the current fiscal year, unassigned fund balance for the general fund was \$10,735,579, a change of \$564,511 in comparison to the prior year. In addition, total general fund balance increased by \$1,390,045.
- Total long-term debt (i.e., bonds payable) at the close of the current fiscal year was \$82,186,008, a change of \$5,631,548 in comparison to the prior year.

C. GOVERNMENT-WIDE FINANCIAL ANALYSIS

The following is a summary of condensed government-wide financial data for the current and prior fiscal years. All amounts are presented in thousands.

Net position - end of year	\$_	79,057	\$_	65,320	\$	107,566 \$	107,586	\$	186,623	172,906	6

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. At the close of the most recent fiscal year, total net position was \$186,623,448, a change of \$13,716,930 from the prior year.

The largest portion of net position \$204,863,687 reflects our investment in capital assets (e.g., land, buildings, machinery and equipment, and infrastructure), less any related debt used to acquire those assets that are still outstanding. These capital assets are used to provide services to citizens; consequently, these assets

are not available for future spending. Although the investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of net position, \$16,383,214 represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position is a deficit of \$(34,623,453) primarily resulting from the City's unfunded net pension liability.

<u>Governmental activities</u>. Governmental activities for the year resulted in a change in net position of \$13,737,106. Key elements of this change are as follows:

Capital grants and contributions	\$	9,320,137
General fund operations		1,390,045
Change in net OPEB obligation		(986,818)
Change in net pension liability		(2,497,168)
Change in pension related deferred inflows		
and outflows		3,959,185
Capital assets from current year revenues		2,345,447
Other		206,278
Total	\$_	13,737,106

Business-type activities. Business-type activities for the year resulted in a change in net position of \$(20,176). This change primarily results from depreciation expense in excess of debt service expense. The following is a summary of the changes in net position by fund:

Water operations	\$	10,486
Sewer operations		178,027
Solid Waste operations		(148,759)
Nonmajor funds	_	(59,930)
Total	\$_	(20,176)

D. FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

As noted earlier, fund accounting is used to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, governmental funds reported combined ending fund balances of \$41,858,738, a change of \$(3,421,891) in comparison with the prior year.

The general fund is the chief operating fund. At the end of the current fiscal year, unassigned fund balance of the general fund was \$10,735,579, while total fund balance was \$15,939,783. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total general fund expenditures. Refer to the table below.

				% of
				Total General
General Fund	6/30/16	6/30/15	<u>Change</u>	Fund Expenditures
Unassigned fund balance	\$ 10,735,579	\$ 10,171,068	\$ 564,511	19.5%
Total fund balance ⁽¹⁾	\$ 15,939,783	\$ 14,549,738	\$ 1,390,045	29.0%
(1) Includes capital reserve funds.				

The unassigned amount exceeded the City Council Fund Balance Policy minimum requirement of 18.5%.

The total General Fund balance increased by \$1,390,045 during the fiscal year. The following table highlights the change in our General Fund balance accounts (in thousands):

								Non-		
	<u>U</u>	<u>nassigned</u>	<u>A</u>	<u>ssigned</u>	<u>C</u>	<u>ommitted</u>	sp	<u>endable</u>		<u>Total</u>

Recreation reserve		650,000		-		650,000
Other	_	53,335	_	38,191		15,144
Total	\$	4,106,177	\$_	3,265,799	\$_	840,378

<u>Proprietary funds</u>. Proprietary funds provide the same type of information found in the business-type activities reported in the government-wide financial statements, but in more detail.

Unrestricted net position of the enterprise funds at the end of the year amounted to \$3,472,819, a change of \$330,936 in comparison to the prior year.

Other factors concerning the finances of proprietary funds have already been addressed in the entity-wide discussion of business-type activities.

E. GENERAL FUND BUDGETARY HIGHLIGHTS

Differences between the original budget and the final amended budget resulted in an overall change in appropriations of \$2,061,426. The City passed resolutions in December 2015 to amend the budget by increasing transfers out to the capital reserve trust funds by \$960,000, funded by the budgetary use of fund balance. In addition, the City passed a resolution in June 2016 to amend the budget by appropriating \$650,000 for recreation purposes funded by unanticipated revenues and fund balance. Additionally, the City Council appropriated \$300,000 from unassigned fund balance as a transfer to the economic development reserve. Other City Council resolutions included minor supplemental appropriations as well as the transfer of funds between departmental line items.

Charges for services revenues exceeded budget amount primarily from ambulance revenues being approximately \$391,000 and motor vehicle registrations \$540,000 in excess of budget estimates. Property Tax Revenues were short of budget by \$471,000 due to additional reserves for abatements. A large portion of the unspent appropriation represents contingency funds, which are reported in the general overhead budget.

F. CAPITAL ASSET AND DEBT ADMINISTRATION

<u>Capital assets</u>. Total investment in capital assets for governmental and business-type activities at year-end amounted to \$276,009,927 (net of accumulated depreciation), a change of \$15,386,202 from the prior year. This investment in capital assets includes land, buildings, system improvements, and machinery and equipment, park facilities, roads, highways and bridges.

Major capital asset events during the current fiscal year included construction and design costs for the Route 3 corridor, and other on-going infrastructure improvements.

<u>Change in credit rating</u>. The City of Concord, New Hampshire has maintained a Moody's credit rating of Aa1 for several years. In fiscal year 2016, the City maintained a Standard & Poor's credit rating of AA+.

Long-term debt. At the end of the current fiscal year, total bonded debt outstanding, including unamortized bond premiums, was \$82,186,008, all of which was backed by the full faith and credit of the government.

Additional information on capital assets and long-term debt can be found in Notes 8 and 11, respectively, of this report.

G. <u>ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES</u>

Comments regarding local economic conditions can be found in the Transmittal letter section on the LOCAL ECONOMY.

Following is a comparison of the fiscal 2016 adopted to the fiscal 2017 adopted City General Fund budget and tax rate:

RECONCILIATION OF TOTAL GOVERNMENTAL FUND BALANCES TO NET POSITION OF GOVERNMENTAL ACTIVITIES IN THE STATEMENT OF NET POSITION

JUNE 30, 2016

Total governmental fund balances	\$	41,858,738
 Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds. 		149,352,852
 Other long-term assets are not available to pay for current- period expenditures and, therefore, are deferred in the funds. 		1,473,950
 Deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as an increase in pension expense in the year ended June 30, 2017. 		4,566,300
 Deferred inflows of resources related to pensions resulting from projected vs. actual earnings, changes in experiences and changes in proportion will be recognized as a reduction of pension expense in the years ending June 30, 2017 through June 30, 2021. 		(3,119,227)
 In the Statement of Activities, interest is accrued on outstanding long-term debt, whereas in governmental funds interest is not reported until due. 		(769,517)
 Long-term liabilities are not due and payable in the current period and, therefore, are not reported in the governmental funds: 		
Bonds payable		(49,375,887)
Net pension liability		(49,925,708)
Net OPEB obligation		(12,247,472)
Other (compensated absences, landfill closure liability, etc)	_	(2,756,466)
Net position of governmental activities	\$_	79,057,563

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

FOR THE YEAR ENDED JUNE 30, 2016

Net Changes in Fund Balances - Total Governmental Funds	\$	(3,421,891)
 Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense: 		
Capital outlay purchases		21,223,232
Depreciation		(5,059,259)
 Governmental funds report only the disposal of assets to the extent proceeds are received from the sale. In the Statement of Activities, a gain or loss is reported for each disposal. This is the amount of the gain of disposed capital assets reduced by the actual proceeds received from the sale of capital assets. 		(24,910)
 Revenues in the Statement of Activities that do not provide current financial resources are fully deferred in the Statement of Revenues, Expenditures and Changes in Fund Balances. Therefore, the recognition of revenue for various types of accounts receivable (i.e., real estate and personal property, motor vehicle excise, etc.) differ between the two statements. This amount represents the net change in deferred revenue. 		1,126,463
 The issuance of long-term debt (i.e., bonds) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the financial resources of governmental funds. Neither transaction, however, has any effect on net position: 		
Bond repayments		5,142,807
Issuance of bonds		(5,644,000)
 In the Statement of Activities, interest is accrued on outstanding long-term debt, whereas in governmental funds interest is not reported until due. 		(53,690)
 Pension and OPEB related inflows and outflows are not reported as expenses in the statement of activities, but are recorded as expenditures in the governmental funds. 		(-,)
Net pension liability		(2,497,168)
Pension related deferred inflows		3,959,185
Other post employment benefits		(986,818)
 Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore, are not reported as expenditures in the governmental funds. 		
Compensated absences		(56,845)
Landfill liability	_	30,000
Change in Net Position of Governmental Activities	\$	13,737,106

Other liabilities	\$ 239,659
Total Liabilities	\$ 239,659

Notes to Financial Statements

1. Summary of Significant Accounting Policies

The accounting policies of the City of Concord (the City) conform to generally accepted accounting principles (GAAP) as applicable to governmental units. The following is a summary of the more significant policies:

A. Reporting Entity

The government is a municipal corporation governed by an elected Mayor, 15-member Council and an appointed City Manager. As required by generally accepted accounting principles, these financial statements present the government and applicable component units for which the government is considered to be financially accountable. In fiscal year 2016, it was determined that no entities met the required GASB 14 (as amended) criteria of component units.

B. Government-wide and Fund Financial Statements

Government-wide Financial Statements

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the nonfiduciary activities of the primary government. With the exception of interfund services provided and used, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Fund Financial Statements

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from

the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. <u>Measurement Focus</u>, <u>Basis of Accounting</u>, <u>and Financial Statement</u> Presentation

Government-wide Financial Statements

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as is the proprietary fund and fiduciary fund financial statements (with the exception of Agency Funds, which have no measurement focus). Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Amounts reported as *program revenues* include (1) charges to customers or applicants for goods, services, or privileges provided, (2) operating grants and contributions, and (3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Fund Financial Statements

Governmental fund financial statements are reported using the *current* financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers property tax revenues to be available if they are collected within 60 days of the end of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

The government reports the following major governmental funds:

• The *General Fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

• The *Major Capital Project Fund (post 2008)* accounts for various construction projects.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise fund are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

The government reports the following major proprietary funds:

- <u>Water Fund</u> to account for the operation and maintenance of the City's water lines, pumping stations and plant.
- <u>Sewer Fund</u> to account for the operation and maintenance of the City's sewer lines, pumping stations, and two wastewater treatment plants.
- <u>Solid Waste Fund</u> to account for the collection and disposal of the City trash.

In addition, the City has two enterprise funds, for Golf and Arena activities, which are reported as nonmajor funds.

The Agency Fund is custodial in nature and is used to account for funds to be remitted to other organizations. The Agency Fund reports only assets and liabilities, and this has no measurement focus.

D. Cash and Short-Term Investments

The government's cash is considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. The New Hampshire Public Deposit Investment Pool (NHPDIP) operates in accordance with RSA 383:22, and regulations and is under the control of the New Hampshire Banking Commission and Advisory Committee. The reported value of the pool is the same as the fair value of the pool shares. Participation units of the NHPDIP are considered short-term for financial presentation purposes.

Investments are considered holdings of greater than three months and are reported at fair value, except certificates of deposits which are reported at cost

City Funds

Under New Hampshire RSA 48:16, the City Treasurer may invest excess funds which are not immediately needed for the purpose of expenditure, in obligations of the United States government, in participation units in the public deposit investment pool established pursuant to RSA 383:22, in savings bank deposits of banks incorporated under the laws of the state of New Hampshire or in certificates of deposits and repurchase agreements of banks incorporated under the laws of the state of New Hampshire or in banks recognized by the state treasurer.

Trust Funds

Under New Hampshire RSA 34:5, capital reserve funds of the City shall be invested only by deposit in some savings bank or in the savings department of a national bank or trust company, or in the shares of a cooperative bank, building and loan association, or federal savings and loan association, in this state or in bonds, notes or other obligations of the United States government, in bonds or notes of this state, in such stocks and bonds as are legal for investment by New Hampshire savings banks, or in participation units in the public deposit investment pool established pursuant to RSA 383:22 by the trustees of the trust funds.

Under New Hampshire RSA 31:27, the city trustees of trust funds may establish, maintain and operate one or more common trust funds, in which may be combined money and property belonging to the various trusts in their care, for the purpose of facilitating investments, providing diversification and obtaining reasonable income; provided however that said common trust funds shall be limited to the investments authorized in RSA 31:25; provided further, that not more than \$10,000, or more than 10 percent of the fund whichever is greater of any town or city common trust funds shall be invested under RSA 31:25 in the obligations of any one corporation or organization, excepting deposits in any federally or state-chartered bank or association authorized to engage in a banking business in this state, in credit unions in this state, or in obligations of the United States and of the state of New Hampshire and its subdivisions; or in participation units in the public deposit investment pool established pursuant to RSA 383:22, or in shares of open-ended mutual funds selected by the trustees for investment under RSA 31:25.

Under New Hampshire RSA 31:25, at least yearly, the trustees of trust funds shall review and adopt an investment policy for the investment of public funds in conformance with the provisions of applicable statutes. The significant sections of that policy are disclosed in Note 3.

E. Interfund Receivables and Payables

Transactions between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due from/to other funds" (i.e., the current portion of interfund loans).

F. Inventories

Inventories are valued at cost using the cost-averaging method.

G. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial individual cost of more than \$10,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value.

Major outlays for capital assets and improvements are capitalized as projects are constructed. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings	40
Building improvements	20
Infrastructure	30 - 75
Vehicles	5
Office equipment	5
Computer equipment	5

H. Accrued Employee Benefits

City employees are granted vacation and sick leave in varying amounts. Upon retirement, termination, or death, certain employees are compensated for unused vacation leave which is at their then current rates of pay. All vested vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured; for example, as a result of employee resignations and retirements.

I. Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt, and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type Statement of Net Position. The General fund and applicable Enterprise Funds typically repay these obligations.

J. Fund Equity

Fund equity at the governmental fund financial reporting level is classified as "fund balance". Fund equity for all other reporting is classified as "net position".

<u>Fund Balance</u> - Generally, fund balance represents the difference between the current assets and current liabilities. The City reserves those portions of fund balance that are legally segregated for a specific future use or which do not represent available, spendable resources and therefore, are not available for appropriation or expenditure. Unassigned fund balance indicates that portion of fund balance that is available for appropriation in future periods.

The City's fund balance classification policies and procedures are as follows:

- 1) Nonspendable funds are either unspendable in the current form (i.e., inventory or prepaid items) or can never be spent because they are legally or contractually required to be maintained intact (i.e., perpetual care).
- 2) Restricted funds are used for specific purposes as imposed by creditors, grantors, contributors, or laws or regulations of other governments, or have constraints imposed by law through constitutional provisions or enabling legislation. In the case of special revenue funds, these funds are created by statute or otherwise have external constraints on how the funds can be expended.
- 3) Committed funds are reported and expended as a result of motions passed by the highest decision making authority in the government, the City Council. A resolution, the highest level action, constitutes the most binding constraint that should be considered to establish, modify, or rescind a fund balance commitment.
- 4) <u>Assigned funds</u> are used for specific purposes as established by management with City Council approval. The City's fund balance policy, approved by the City Council, permits the City Manager and Finance Director to assign fund balance amounts to a specific purpose.

5) Unassigned funds represent the residual classification for the General Fund and include all amounts not contained in the other classifications. Unassigned amounts are available for any purpose. Temporary fund balance deficits are reported as negative amounts in the unassigned classification in other governmental funds. Positive unassigned amounts are reported only in the General Fund.

When an expenditure is incurred that would qualify for payment from multiple fund balance types, the City uses the following order to liquidate liabilities: restricted, committed, assigned and unassigned.

<u>Net Position</u> - Net position represents the difference between assets/ deferred outflows and liabilities/deferred inflows. Net investment in capital assets, net of related debt, consist of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the City or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The remaining net position is reported as unrestricted.

K. Use of Estimates

The preparation of basic financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures for contingent assets and liabilities at the date of the basic financial statements, and the reported amounts of the revenues and expenditures/expenses during the fiscal year. Actual results could vary from estimates that were used.

2. Stewardship, Compliance, and Accountability

A. Budgetary Information

The City adopts a legal budget for its General Fund and enterprise funds, as well as the following special revenue funds: parking, airport, community development engineering inspection, and community development conservation property management. The City observes the following procedures in establishing the budgetary data reflected in the financial statements:

 At such time as may be requested by the City Manager, or specified by the administrative code, each director of a department submits an itemized estimate of the expenditures for the next fiscal year for the departments or activities under his control.

- Under the City charter, the City Manager must submit the budget to Council 45 days before the start of the fiscal year.
- A public hearing on the budget is held before its final adoption by the City Council. Notice of the public hearing, together with a summary of the budget as submitted, is published at least one week in advance by the City Clerk.
- By City charter, the budget must be legally adopted not later than the twenty-seventh day of July. In connection with converting to a June 30 fiscal year end, an adopted ordinance requires budget adoption by July 1 of the new fiscal year. Should the City Council take no final action by the date specified in the charter, the budget, as submitted, is deemed to have been finally adopted by the City Council.
- No appropriation is made for any purpose not included in the annual budget as adopted unless voted by a two-thirds majority of the City Council after a public hearing held to discuss the appropriation. The City Council shall by resolution designate the source of any money so appropriated.
- At the beginning of each quarterly period during the fiscal year, and more often if required by the City Council, the City Manager submits data to the City Council showing a comparison of the estimated and actual revenues and expenditures to date. If it appears that the revenues are less than anticipated, the City Council or City Manager may reduce the appropriation for any item or items, except amounts required for debt and interest charges, to such a degree as may be necessary to keep expenditures within the City's revenues. The City Manager may provide for monthly or quarterly allotments of appropriations to departments, funds, or agencies under such rules as he may prescribe.
- After the budget has been adopted no expenditure may be incurred, except pursuant to a budget appropriation unless there is a specific additional appropriation thereof. The head of any department, with the approval of the City Manager, may transfer any unencumbered balance or any portion thereof from one fund or agency within his/her department to another fund or agency within his/her department. The City Manager must report these transfers to the City Council. The City Manager, with the approval of the Council, may transfer any unencumbered appropriation balance or any portion thereof from one department to another. The legal level of control is at the department level.
- Budget appropriations lapse at the end of the fiscal year.

B. Budgetary Basis

The General Fund final appropriation appearing on the "Budget and Actual" page of the fund financial statements represents the final amended budget after all reserve fund transfers and supplemental appropriations.

C. <u>Budget/GAAP Reconciliation</u>

The budgetary data for the general, special revenue, and proprietary funds is based upon accounting principles that differ from generally accepted accounting principles (GAAP). Therefore, in addition to the GAAP basis financial statements, the results of operations of the General Fund and special revenue funds are presented in accordance with budgetary accounting principles to provide a meaningful comparison to budgetary data.

The following is a summary of adjustments made to the actual revenues and other sources, and expenditures and other uses, to conform to the budgetary basis of accounting.

	Revenues and Other		Expenditures and Other		
<u>General Fund</u>	Fin	ancing Sources	Financing Uses		
Revenues/Expenditures (GAAP Basis)	\$	55,892,014	\$	54,929,789	
Other financing sources/uses (GAAP Basis)	_	1,482,706	_	1,054,886	
Subtotal (GAAP Basis)		57,374,720		55,984,675	
Reverse nonbudgeted activity	_	1,943,613	_	2,783,990	
Budgetary Basis	\$_	59,318,333	\$_	58,768,665	

In addition, adjustments were made to the enterprise funds to conform to the budgetary basis, primarily for the omission of depreciation expense which is not budgeted, the inclusion of principal debt service and capital expenses which are budgeted expenses.

D. Excess of Expenditures Over Appropriations

The City reflected expenditures in excess of appropriation in the following departments and transfers out:

General Fund:

Human resources	\$ (3,475)
Police	\$ (142,599)
Community development	\$ (12,743)
Transfers out	\$ (1,698)

E. Deficit Fund Equity

The following funds or projects had deficits as of June 30, 2016:

Major Capital Project Fund (post 2008)	\$	(72,194)
Nonmajor Governmental Funds:		
Community Development Fund		(1,194)
Miscellaneous Special Revenue Fund		(103,666)
Manchester Street Fund		(133,401)
Sears Block Capital Fund	_	(1,780,918)
Total	\$_	(2,091,373)

The temporary deficits in these funds or projects results from timing issues at year-end and were eliminated by revenues or bond proceeds in fiscal year 2017.

3. Cash and Investments

A. Custodial Credit Risk

Custodial credit risk for deposits is the risk that in the event of a bank failure, the deposits may not be returned. The custodial credit risk for investments is the risk that, in the event of a failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party.

City Funds

Custodial Credit Risk - Deposits. RSA 48:16 limits "deposit in any one bank shall not at any time exceed the sum of its paid-up capital and surplus, exception that a city with a population in excess of 50,000 is authorized to deposit funds in a solvent bank in excess of the paid-up capital surplus of said bank." The City's deposit policy for custodial credit risk is to fully collateralize all deposits.

As of June 30, 2016, City's bank balance of \$65,862,753 was insured or collateralized.

The Investment Policy of the City's Trustees of the Trust Funds does not permit deposits and investments in the following, without prior written approval:

- Unregistered or restricted stock
- Commodities, including gold, precious gems or currency futures
- Private placement debt

- Conditional sales contracts
- Uncovered options
- Short sales or margin purchases
- Transferable certificates of participation in business trusts and limited partnerships
- Securities of the investment managers or their respective parents, subsidiaries or affiliates
- Tobacco stock

Investments at June 30, 2016 consisted of the following:

Certificates of deposit	\$	3,017,928
U.S. Treasury securities		747,949
U.S. Government agencies		1,801,139
Corporate and foreign bonds		2,858,256
Common equities		5,596,548
International equity mutual funds pool		1,177,543
Closed equity mutual funds		2,612,985
Taxable fixed income funds pool	_	906,428
Total investments	\$	18,718,776

Of the City's total investments, the City has a custodial credit risk exposure of \$15,700,848 because the related securities are uninsured, unregistered and held by the System's brokerage firm, which is also the Counterparty to these securities. The System manages this risk with SIPC, excess SIPC and the assets are held in separately identifiable trust accounts.

B. Credit Risk

The City's Investment Policy and the Board of Trustees Investment Policy minimize credit risk by limiting investments to the safest types of securities as listed above, pre-qualifying institutions and diversifying the portfolio. Information regarding the quality and maturity dates of fixed income securities is as follows (in thousands). (All federal agency securities have an implied credit rating of AAA.):

				Investment Maturities					
			_		(i	n Years)			Average
Investment Type		<u>Total</u>	_	<u><1</u>		<u>1-5</u>		<u>6-10</u>	Rating
U.S. Treasury securities	\$	748	\$	-	\$	380	\$	368	AAA
U.S. Government agencies		1,801		-		1,672		129	AAA
Corporate and foreign bonds	_	2,858	-	553	_	1,943	-	362	A2
Total	\$	5,407	\$	553	\$	3,995	\$	859	

C. Concentration of Credit Risk

City Funds

The City's Investment Policy limits its exposure to concentration credit risk by limiting the types of investment securities that it holds to U.S. Government Obligations and by splitting its short-term deposits between financial institutions that fully collateralize them and the NHPDIP that also collateralizes the deposits and fully insures them.

Trust Funds

It is the policy of the Trustees that common investments shall be diversified to eliminate the risk of loss resulting from over-concentration of assets in a specific maturity, industry or specific issuer. The Trustees' concentration of credit risk policy is to not allow more than 5% of the portfolio to be invested in the securities of one issuer, with the exception of the U.S. Government or its agencies. As of and for the fiscal year ended June 30, 2016, the City was in compliance with this limitation policy.

D. Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value is to changes in market interest rates. Please see table above under Part B.

City Funds

The City's investment policy is to minimize the risk that the market value of securities will fall due to changes in general interest rates by structuring the portfolio so securities mature to meet the cash requirements for ongoing operations, thus avoiding the need to sell securities on the open market prior to maturity. The policy also provides for investing primarily in shorter-term securities, including the local government investment pool.

Trust Funds

The Trust recognizes that investment risks can result from issuer defaults, market price changes or various technical complications leading to temporary loss of liquidity. Portfolio diversification is to be employed as a way to control risk. The Trustee is expected to use prudence in the selection of securities as a way to minimize default risk. No individual investment transaction shall be undertaken that jeopardizes the total capital position of the specific issuer. The Trustee shall review and, if appropriate, proceed to liquidate any securities having comparable credit risks.

Information about the sensitivity of the fair values of the Trust's investments to market interest rate fluctuations is not provided, since all investments are held in mutual funds.

E. Foreign Currency Risk

The City's and Trustee's investment policies do not specifically address foreign currency issues, however, the City and Trustee believe that they have minimal exposure to foreign currency risk.

F. Fair Value

The City categorizes its fair value measurements within the fair value hierarchy established by Governmental Accounting Standards Board Statement No. 72 Fair Value Measurement and Application (GASB 72). The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The City has the following fair value measurements as of June 30, 2016:

			Fair Value Measurements Using:					ng:
<u>Description</u>				Quoted prices in active markets for lentical assets (Level 1)		Significant observable inputs (Level 2)	ι	Significant inobservable inputs (Level 3)
Investments by fair value level:								
Debt securities							_	
	\$	747,949	\$	-	\$	747,949	\$	-
U.S. Government securities		1,801,139		-		1,801,139		-
Corporate and foreign bonds		2,858,256		-		2,858,256		-
Taxable fixed income		906,428		-		906,428		-
Equity securities								
Common equities		5,596,548		5,596,548		-		-
International equity mutual funds		1,177,543		1,177,543		_		-
Closed end equity mutual funds	_	2,612,985		2,612,985		-		-
Total	\$_	15,700,848						

4. Property Taxes Receivable

The City bills property taxes on a quarterly basis and they are due in July, October, January and March. Property tax revenues are recognized in the fiscal year for which taxes have been levied to the extent that they become available, i.e., due or receivable, within the current fiscal year and collected within the current period or within 60 days of year-end.

Property taxes collected before the due date, and in advance of the year for which they are levied, are recorded as a prepaid tax liability as they are intended to finance the subsequent year's budget.

At the time of the tax lien, which the City usually places within 60 to 90 days after the due date, a lien is recorded on the property at the Registry of Deeds. If the property taxes (redemptions) are not paid within two years and one day of the tax lien date, the property could be conveyed to the City by deed and subsequently sold at public sale held in November of each year.

The City annually raises through tax levy an amount (overlay for abatements) for property tax abatements and interest refunds. All abatements and interest refunds are charged to overlay.

Taxes receivable at June 30, 2016 consist of the following:

Property taxes:			
Levy of 2016	\$	31,260,511	
Levy of 2015		1,630,746	
Levy of 2014		800,791	
Levy of 2013		98,959	
Levy of 2012		18,005	
Prior years	_	14,031	
Subtotal			33,823,043
Other taxes:			
Land use change taxes		9,809	
Timber yield taxes		8,058	
Elderly tax liens	_	9,558	
Subtotal			27,425
Gross Tax Receivable			33,850,468
Allowance for Abatements (overlay)			(2,019,254)
Net Total Taxes Receivables			\$ 31,831,214

5. <u>Loans Receivable</u>

Loans receivable of \$586,351 in non-major governmental funds represent the uncollected balance of community development loans.

6. <u>Intergovernmental Receivables</u>

Intergovernmental receivables in the sewer fund represent annual reimbursements from the New Hampshire Department of Environmental Services. The amount due from the State in future years is as follows:

Fiscal Year Ended	_	Reimbursement For					
<u>June 30</u>		<u>Principal</u>		<u>Interest</u>		<u>Total</u>	
2017 2018 2019 2020 2021 2021-2025 2026-2030 2031-2035	\$	214,004 211,156 187,614 189,609 91,427 480,296 334,773 105,329	\$	55,945 51,783 47,517 43,266 38,725 122,417 51,521 6,775	\$	269,949 262,939 235,131 232,875 130,152 602,713 386,294 112,104	
Total	\$_	1,814,208	\$	417,949	- \$_	2,232,157	

7. Interfund Fund Accounts

Receivables/Payables

Although self-balancing funds are maintained, most transactions flow through the General Fund. In order to obtain accountability for each fund, interfund receivable and payable accounts must be utilized. The following is an analysis of interfund receivable and payable accounts:

<u>Fund</u>	_	ue From ner Funds	Due To Other Funds			
General Fund	\$	134,987	\$	-		
Nonmajor Governmental Funds: Capital Project Funds: Manchester Street	_	<u>-</u>	_	134,987		
Total	\$	134,987	\$	134,987		

Transfers

The City reports Interfund transfers between various funds. The sum of all transfers presented in the table agrees with the sum of Interfund transfers presented in the governmental and proprietary fund financial statements. The following is an analysis of interfund transfers:

	Transfers In	Transfers Out
Governmental Fund:		
Major Funds:		
General Fund	\$ 1,482,706	\$ 1,054,886
Major Capital Project Fund	2,345,447	6,393
Nonmajor Funds:		
Special Revenue Funds:		
Community Development	1,194	-
Community Development		4.000
Engineering Inspection	-	4,336
Community Development Conservation Property Management		55,600
Parking	- 397,077	230,170
Airport	73,230	133,815
Impact Fee	-	397,502
Miscellaneous Special Revenue	9,835	-
Durgin Garage	10,500	132,744
Forest and Conservation	505	1,067
Library	-	10,635
Dedicated Income Library	-	185,500
Mountain Green	-	250,000
Capital Project Funds:		
Sears Block Capital	30,000	-
Permanent Funds:		
Cemetery (Nonexpendable)	-	116,453
Other	-	125
Debt Service Funds:		
NEOC	-	138,749
Sears Block	-	673,355
Penacook	-	6,618
Business-Type Funds:		
Major Funds:		
Water	-	1,031,961
Sewer Solid Waste	302,447	1,100,497
	990,130	3,600
Nonmajor Funds:	00.705	70.440
Golf	20,725	79,440
Arena	71,722	122,072
Total	\$ <u>5,735,518</u>	\$ <u>5,735,518</u>

Most transfers result from budgetary or statutory actions, whereby funds are moved to accomplish various expenditure purposes.

The entire \$990,130 transfer into the Solid Waste fund was transferred from the General Fund to subsidize the fund operations. In addition, approximately \$471,315 and \$570,825 were transferred from the Water and Sewer funds, respectively, to the General Fund for indirect costs. \$1,327,339 of the transfer into the Major Capital Project Fund (post 2008) was transferred from the General Fund (Highway Reserve Trust Fund). An additional \$340,000 of the transfer into this fund was transferred from the General Fund.

8. <u>Capital Assets</u>

Capital asset activity for the year ended June 30, 2016 was as follows (in thousands):

11. Long-Term Debt

A. Long-Term Debt Supporting Governmental Activities

General obligation bonds, issued by the City for various municipal projects are approved by City Council and repaid with property taxes recorded in the General Fund and user fees recorded in Enterprise Funds. Compensated absences, pension and other postemployment benefits are repaid from the funds that the costs relate to, mostly General Fund, and also water, sewer, solid waste, golf, arena, and other special revenue funds.

B. General Obligation Bonds and Loans

The City issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. General obligation bonds have been issued for both governmental and business-type activities. The City has not issued any revenue bonds. All bonds and loans outstanding were used in calculating the net investment in capital assets. General obligation bonds currently outstanding are as follows:

						Amount
			Serial			Outstanding
		Original	Maturities	Interest		as of
Governmental Activities:		Amount	Through	Rate(s) %		6/30/16

⁽A) The City estimates that all of this liability is current.

F. Prior Year's Debt Defeasance

In prior years, the City has defeased various bond issues by creating separate irrevocable trust funds. The proceeds from the new issuances of the general obligation bonds were used to purchase U.S. government securities, and those securities were deposited in irrevocable trusts with an escrow agent to provide debt service payments until the refunded bonds mature. For financial reporting purposes, the debt has been considered defeased, and therefore, removed as a liability from the City's balance sheet. As of June 30, 2016, the amount of defeased debt still outstanding on the fiscal year 2010 refunding is \$201,608. Defeased debt for fiscal year 2015 refunding of the 2005 issue was \$1,085,000. Defeased debt for fiscal year 2015 refunding of the 2006 issue was \$1,835,000. Defeased debt for fiscal year 2015 refunding of the 2007 issue was \$4,170,000.

12. Landfill Closure and Postclosure Care Costs

The City is required by state and federal laws and regulations to construct a final capping system on the Concord Sanitary Landfill and perform certain maintenance and monitoring functions at the site for 30 years. The landfill stopped accepting waste in May 1994, and the final capping system was completed in July 1995. The City has reflected \$270,000 as the estimate of the remaining postclosure care liability at June 30, 2016 in the Governmental Activities Statement of Net Position. Actual costs may differ due to inflation, changes in technology, or changes in regulations.

13. <u>Deferred Inflows of Resources – Non Pension Related</u>

Deferred inflows of resources are the acquisition of net assets by the City that are applicable to future reporting periods. Deferred inflows of resources have a negative effect on net position, similar to liabilities.

The following is a summary of deferred inflow of resources balances as of June 30, 2016:

	Entity-wide Basis				Fund Basis							
	(Governmental Business-type				Government	al Funds		Proprieta	ry Funds		
		<u>Activities</u>		<u>Activities</u>		General Fund	<u>Nonmajor</u>		Solid Waste	<u>Nonmajor</u>		
Taxes collected in advance	\$	54,240,336	\$	-	\$	55,053,748 \$	-	\$	- 9	-		
Prepaid revenues		258,341		226,363		-	-		167,200	59,163		
Unavailable revenues		-		-		309,274	609,604		-			
Total	\$_	54,498,677	\$	226,363	\$	55,363,022	609,604	\$	167,200	59,163		

14. <u>Governmental Funds - Balances</u>

Fund balances are segregated to account for resources that are either not available for expenditure in the future or are legally set aside for a specific future use.

The following types of fund balances are reported at June 30, 2016:

Nonspendable - This fund balance classification includes an offset for inventory and reserves for the principal portion of permanent trust funds.

<u>Restricted</u> - This fund balance classification includes various special revenue funds, capital project balances funded by bond issuances, debt service fund balances and the income portion of permanent trust funds.

<u>Committed</u> - This fund balance classification includes General Fund capital reserve funds set aside by City Council vote for future capital acquisitions and improvements, amounts used from operations for capital per City Council resolutions, and various special revenue funds.

<u>Assigned</u> - This fund balance classification includes General Fund surplus balances that management assigns for specific purposes with City Council approval.

<u>Unassigned</u> - This fund balance classification includes General Fund available balance and other funds' temporary fund balance deficits.

Following is a breakdown of the City's fund balances at June 30, 2016:

	General <u>Fund</u>	Major Capital Project <u>Fund</u>	Nonmajor Governmental <u>Funds</u>	Total Governmental <u>Funds</u>

15. Commitments and Contingencies

<u>Outstanding Legal Issues</u> - There are several pending legal issues in which the City is involved. The City's management is of the opinion that the potential future settlement of such claims would not materially affect its financial statements taken as a whole.

<u>Grants</u> - Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount of expenditures which may be disallowed by the grantor cannot be determined at this time, although the City expects such amounts, if any, to be immaterial.

<u>Abatements</u> - There are certain cases pending before the BTLA and Superior Court in NH in regard to alleged discrepancies in property assessments. According to the City's counsel, the probable outcome of these cases at the present time is indeterminable.

16. Post-Employment Healthcare and Life Insurance Benefits

The City provides certain healthcare benefits for retired employees and will provide benefits to current employees hired prior to January 1, 1991 upon retirement. Payments are made in accordance with City policy established in January 1987 and annual appropriations. In order to participate in the City Group Health Insurance Program (the Retiree Group), the employee must be enrolled in the City group plan upon the date of retirement from the City, must be at least age 62 with 10 years of service (age 60 with 35 or more years of service), and must be vested in the New Hampshire Retirement System.

Persons who retire from the City with at least ten (10) years of creditable services in the New Hampshire Retirement System but prior to the minimum age 62 must maintain an unbroken participation (at retiree's expense) in the Retiree Group from the effective date of their retirement until qualifying for the City-paid premium benefit in order to become eligible for such City-paid premium benefit at a later date.

As of June 30, 2016, there were 309 retiree subscribers, including eligible spouses, receiving healthcare benefits through the City. The City recognizes the cost of providing these benefits as paid.

The City implemented GASB Statement 45, Accounting and Financial Reporting by Employers for Post-Employment Benefits Other Than Pensions. Statement 45 requires governments to account for other post-employment benefits (OPEB), primarily healthcare, on an accrual basis rather than on a pay-as-you-go basis. The effect is the recognition of an actuarially required contribution as an expense on the Statement of Activities when a future retiree earns their post-employment benefits, rather than when they use their

post-employment benefit. To the extent that an entity does not fund their actuarially required contribution, a post-employment benefit liability is recognized on the Statement of Net Position over time.

A. Plan Description

In addition to providing the pension benefits described, the City provides post-employment healthcare and life insurance benefits for retired employees through the City's single employer defined benefit plan. The benefits, benefit levels, employee contributions and employer contributions are governed by RSA 100-A:50. As of June 30, 2015, the actuarial valuation date, approximately 282 retirees and 428 active employees meet the eligibility requirements. The plan does not issue a separate financial report.

B. Benefits Provided

The City provides medical, prescription drug, mental health/substance abuse and life insurance to retirees and their covered dependents. All active employees who retire from the City and meet the eligibility criteria will receive these benefits.

C. Funding Policy

Retirees contribute in aggregate 21% of the cost of the health plan, as determined by the City. The City contributes the remainder of the health plan costs on a pay-as-you-go basis.

D. Annual OPEB Costs and Net OPEB Obligation

The City's fiscal 2016 annual OPEB expense is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover the normal cost per year and amortize the unfunded actuarial liability over a period of thirty years. The following table shows the components of the City's annual OPEB cost for the year ending June 30, 2016, the amount actually contributed to the plan, and the change in the City's net OPEB obligation based on an actuarial valuation as of June 30, 2015.

Annual Required Contribution (ARC)	\$	2,767,371
Interest on net OPEB obligation		563,069
Adjustment to ARC	_	(768,171)
Annual OPEB cost		2,562,269
Contributions made	_	(1,467,451)
Increase in net OPEB obligation		1,094,818
Net OPEB obligation - beginning of year	_	12,512,654
Net OPEB obligation - end of year	\$	13,607,472

The City's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation were as follows:

		Percentage of		
	Annual OPEB	OPEB	ı	Net OPEB
Fiscal Year Ended	Cost	Cost Contributed	(Obligation
2016	\$ 2,562,269	57.3%	\$	13,607,472
2015	\$ 3,332,232	39.0%	\$	12,512,654
2014	\$ 3,195,427	39.6%	\$	10,478,998
2013	\$ 3,423,333	41.4%	\$	8,548,445
2012	\$ 3,458,108	51.2%	\$	6,543,609
2011	\$ 3,431,103	43.5%	\$	4,854,548
2010	\$ 2,748,222	48.6%	\$	2,916,832
2009	\$ 2,596,459	42.0%	\$	1,505,193

The City's net OPEB obligation as of June 30, 2016 is recorded as a component of the "other long-term liabilities" line item.

E. Funded Status and Funding Progress

The funded status of the plan as of June 30, 2015, the date of the most recent actuarial valuation was as follows:

Actuarial accrued liability (AAL) Actuarial value of plan assets	\$ _	34,195,948 <u>-</u>
Unfunded actuarial accrued liability (UAAL)	\$_	34,195,948
Funded ratio (actuarial value of plan assets/AAL)	=	0%
Covered payroll (active plan members)	\$_	26,494,964
UAAL as a percentage of covered payroll	=	129.1%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amount and assumptions about the probability of occurrence of events far into the future. Examples included assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The Schedule of OPEB Funding Progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

F. Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the plan as understood by the City and the plan members and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the City and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the June 30, 2015 actuarial valuation, the projected unit credit cost method was used. The actuarial value of assets was not determined as the City has not advance funded its obligation. The actuarial assumptions included a 4.5% investment rate of return, a 3.0% inflation rate, projected salary increases of 3% per year, and an initial annual healthcare cost trend rate of 10% which decreases to a 5.0% long-term rate for all healthcare benefits after ten years. The amortization costs for the initial UAAL is a level dollar amount for a period of 30 years, on an open group.

17. Retirement System

The City follows the provisions of GASB Statement No. 68, Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27, with respect to the State of New Hampshire Retirement System (NHRS).

A. Plan Description

Full-time employees participate in the New Hampshire Retirement System (NHRS), a cost sharing, multiple-employer defined benefit contributory pension plan and trust established in 1967 by RSA 100-A:2 and qualified as a tax-exempt organization under Sections 401(a) and 501(a) of the Internal Revenue Code. The plan is a contributory, defined benefit plan providing service, disability, death, and vested retirement benefits to members and their beneficiaries. Substantially all full-time state employees, public school teachers and administrators, permanent firefighters, and permanent police officers within the State of New Hampshire are eligible and required to participate in the system. Full-time employees of political subdivisions, including counties, municipalities, and school districts, are also eligible to participate as a group if the governing body of the political subdivision has elected participation.

The New Hampshire Retirement System, a Public Employees Retirement System (PERS), is divided into two membership groups. State or local employees and teachers belong to *Group I*. Police officers and firefighters belong to *Group II*. All assets are held in a single trust and are available to each group. Additional information is disclosed in the NHRS annual report

publicly available from the New Hampshire Retirement System located at 54 Regional Drive, Concord, New Hampshire 03301-8507.

B. Benefits Provided

Group I members at age 60 or 65 (for members who commence service after July 1, 2011) qualify for a normal service retirement allowance based on years of creditable service and average final salary for the highest of either three or five years, depending on when their service commenced. The yearly pension amount is 1/60 or 1.667% of average final compensation (AFC), multiplied by years of creditable service. At age 65, the yearly pension amount is recalculated at 1/66 or 1.515% of AFC multiplied by years of creditable service.

Group II members who are age 60, or members who are at least age 45 with at least 20 years of creditable service, can receive a retirement allowance at a rate of 2.5% of AFC for each year of creditable service, not to exceed 40 years. Members commencing service on or after July 1, 2011 or members who have a nonvested status as of January 1, 2012 can receive a retirement allowance at age 52.5 with 25 years of service or age 60. The benefit shall be equal to 2% of AFC times creditable service up to 42.5 years. However, a member who commenced service on or after July 1, 2011 shall not receive a retirement allowance until attaining the age of 52.5, but may receive a reduced allowance after age 50 if the member has at least 25 years of creditable service where the allowance shall be reduced, for each month by which the benefit commencement date precedes the month after which the member attains 52.5 years of age by ½ of 1% or age 60.

Members of both groups may qualify for vested deferred allowances, disability allowances and death benefit allowances subject to meeting various eligibility requirements. Benefits are based on AFC or earned compensation and/or service.

C. Contributions

Plan members are required to contribute a percentage of their gross earnings to the pension plan, which the contribution rates are 7% for employees and teachers, 11.55% for police and 11.80% for fire. The City makes annual contributions to the pension plan equal to the amount required by Revised Statutes Annotated 100 - A:16 ranging from 11.17% to 29.16% of covered compensation. The City's contribution to NHRS for the year ended June 30, 2016 was \$4,844,654 (exclusive of a \$527,401 medical subsidy contribution), which was equal to its annual required contribution.

D. <u>Summary of Significant Accounting Policies</u>

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the NHRS and additions to/deductions from NHRS' fiduciary net position have been determined on the same basis as they are reported by NHRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Investments are reported at fair value.

E. <u>Pension Liabilities, Pension Expense, and Deferred Outflows of</u> Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2016, the City reported a liability of \$52,971,572 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2014. The City's proportion of the net pension liability was based on a projection of the City's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined.

At the most recent measurement date of June 30, 2015, the City's proportion was 1.3372 percent, which was a decrease of 0.0042 percent from its previous year proportion.

For the year ended June 30, 2016, the City recognized pension expense of \$3,227,069. The City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ -	\$ 1,162,409
Net difference between projected and actual earnings on pension plan investments	-	1,415,728
Changes in proportion and differences between contributions and proportionate share of contributions	-	731,388
Contributions subsequent to the measurement date	4,844,655	<u> </u>
Total	\$ 4,844,655	\$ 3,309,525

Deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as an increase in pension expense in the year ended June 30, 2017. Other amounts reported as deferred inflows of resources related to pensions will be recognized as a reduction in pension expense as follows:

Year ended June 30:

2017		\$ 1,215,391
2018		1,215,391
2019		1,215,391
2020		(453,898)
2021		117,250
	Total	\$ 3,309,525

F. Actuarial Assumptions

The total pension liability in the June 30, 2014 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 3.0 percent per year

Salary increases 3.75 - 5.8 percent average, including inflation Investment rate of return 7.75 percent, net of pension plan investment

expense, including inflation

Mortality rates were based on the RP-2000 mortality table, projected to 2020 with Scale AA. The table includes a margin of 15% for men and 17% for woman for mortality improvements.

The actuarial assumptions used in the June 30, 2014 valuation were based on the results of the most recent actuarial experience study, which was for the period July 1, 2005 – June 30, 2010.

The long-term expected rate of return on pension plan investments was selected from a best estimate range determined using the building block approach. Under this method, an expected future real return range is calculated separately for each asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return net of investment expenses by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major class are summarized in the following table:

Asset Class	Target Allocation Percentage	Average Long- Term Expected Real Rate of Return
Large Cap Equities Small/Mid Cap Equities	22.50 % 	3.25% 3.25%
Total domestic equities	30.00	
Int'l Equities (unhedged) Emerging Int'l Equities Total international equities	13.00 7.00 20.00	4.25% 6.50%
Core Bonds Short Duration Global Multi-Sector Fixed Income Unconstrained Fixed Income	4.50 2.50 11.00 7.00	-0.70% -1.00% 0.28% 0.16%
Total fixed income	25.00	
Private equity Private debt Real estate Opportunistic	5.00 5.00 10.00 5.00	5.50% 4.50% 3.50% 2.75%
Total alternative investments	25.00	
Total	100.00 %	

Weighted Average

G. Discount Rate

The discount rate used to measure the total pension liability was 7.75%. The projection of cash flows used to determine the discount rate assumed that the plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. For purposes of the projection, member contributions and employer service cost contributions are projected based on the expected payroll of current members only. Employer contributions are determined based on the pension plan's actuarial funding policy and as required by RSA 100 - A:16. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

H. <u>Sensitivity of the Proportionate Share of the Net Pension Liability to</u> Changes in the Discount Rate

The following presents the City's proportionate share of the net pension liability calculated using the discount rate of 7.75 percent, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage-point lower (6.75%) or 1 percentage-point higher (8.75%) than the current rate:

		Current	
	1%	Discount	1%
	Decrease	Rate	Increase
Fiscal Year Ended	(6.75%)	(7.75%)	(8.75%)
June 30, 2016	\$ 69,730,190	\$ 52,971,572	\$ 38,684,753

I. Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued NHRS financial report.

18. Risk Management

The government is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the government carries commercial insurance. The government participates in a risk pool for workers' compensation for which it does not retain any risk of loss. There were no significant reductions in insurance coverage from the previous year and have been no material settlements in excess of coverage in any of the past three fiscal years.

19. <u>Implementation of New GASB Standard</u>

The Governmental Accounting Standards Board (GASB) has issued Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other than Pensions, replacing requirements of Statements No. 45 and 57, effective for the City beginning with its year ending June 30, 2018. This Statement establishes standards for recognizing and measuring liabilities, deferred outflows of resources, deferred inflows of resources, and expense/expenditures. In addition, this Statement details the recognition and disclosure requirements for employers with payables to defined benefit OPEB plans that are administered through trusts that meet the specific criteria and for employers whose employees are provided with defined contribution OPEB. Management's current assessment is that this pronouncement will have an impact by increasing the net OPEB liability, and as a result, decreasing the unrestricted net position of the government-wide financial statements.

20. <u>Tax Increment Districts</u>

The following represents the North End Opportunity Corridor Tax Increment Financing District's life-to-date financial report. This District is reported as a debt service fund of the City.

Governmental Funds Combining Financial Statements

NON-MAJOR GOVERNMENTAL FUNDS

SPECIAL REVENUE FUNDS

Special Revenue Funds are established to account for resources obtained and expended for specified purposes and restricted by law or local action.

Special Revenue Funds are established for the following purposes:

- Community Development Fund to account for the use of Community
 Development Block Grant Funds as received from the federal government
 through the New Hampshire Office of State Planning.
- Housing Revolving Loan Fund to account for revenues and expenditures incurred with loans issued to various homeowners.
- Community Development Engineering Inspection Fund to account for funds related to providing inspection services funded by developers and contractors for their projects.
- Community Development Conservation Property Management Fund to account for funds related to operating and managing conservation property purchased by conservation funds including land use change taxes, conservation bonds, and other sources designated for a similar purpose.
- <u>Parking Fund</u> to account for revenues and expenditures incurred with the collection of City parking meter fees.
- <u>Airport Fund</u> to account for revenues and expenditures incurred with the operation of the Concord Airport.
- Impact Fee Fund to account for revenues and expenditures incurred with fees charged on the construction of new buildings.
- <u>Miscellaneous Special Revenue Fund</u> to account for the various other funds of the City legally restricted for specific purposes.
- <u>Durgin Garage</u> to account for monies received by the City to fund capital improvements on the Durgin Garage.
- <u>Forest and Conservation</u> to account for revenues collected from the Land Use Charge Tax (used to preserve and protect open space, forests and conservation land in the City) and the option to purchase real property or interests therein.

- <u>Cemetery</u> to account for expendable gifts to the City designated for the maintenance of cemeteries.
- <u>Library</u> to account for expendable gifts to the City designated for the libraries.
- <u>Dedicated Income</u> to account for contributions received by the City to support operations.
- <u>Mountain Green</u> to account for assessment revenues designated for the repair, maintenance, and replacement of the sanitary sewer system.
- <u>Downtown Economic Development</u> to account for funds transferred from the Community Development Fund for downtown economic development.

CAPITAL PROJECT FUNDS

Capital Project Funds are established to account for resources obtained and expended for the acquisition of major capital facilities or equipment other than those employed in the delivery of services accounted for in Enterprise Funds.

The current funds were established for the following purposes:

- <u>Fire Facility Renovations</u> to account for the construction and renovation of the City's Fire Department Facility.
- Route 3 Corridor Fund to account for the design and construction of roadway improvements in an effort to address existing and future traffic congestion, access and mobility along the Route 3 corridor.
- <u>Manchester Street Fund</u> to account for the design and construction of roadway improvements in an effort to address existing and future traffic congestion, access and mobility along Manchester Street.
- North End Opportunity Corridor (NEOC) Capital Fund to account for the construction and redevelopment within the district, including but not limited to public infrastructure improvements to serve new development.
- <u>Sears Block Capital Fund</u> to account for the maintenance of landscaping and related public infrastructures associated with the capital common municipal parking garage.
- <u>Penacook Village Capital Fund</u> to account for the design and construction of a variety of public improvements within the district, including but not limited to roadway reconstruction, sidewalk construction, streetscape amenities, and utility reconstruction and replacement.

PERMANENT FUNDS

Permanent Funds are established to account for certain assets held by the City in a fiduciary capacity as trustee. The following are descriptions of the City Permanent Funds:

- <u>Cemetery</u> to account for nonexpendable gifts to the City. Income is available for maintenance of various cemeteries.
- <u>Library</u> to account for nonexpendable gifts received by the library with income restricted for maintenance of the library grounds.
- Other to account for all other nonexpendable gifts received by the city. Income is available for those activities designated by the appropriate trust instrument.

DEBT SERVICE FUNDS

Debt Service Funds are established to account for the accumulation of resources and payment of general obligation bond principal and interest from governmental resources.

The following are descriptions of the City's Debt Service Funds:

- North End Opportunity Corridor (NEOC) Tax Increment Financing District (NEOCTIFD) - established in March 1998 to account for related revenues and debt service expenditures by this TIFD.
- <u>Sears Block Tax Increment Financing District (SBTIFD)</u> to account for funds collected in accordance with the tax increment financing plan dedicated for repayment of bonds issued for construction of the Capital commons Garage.
- <u>Penacook Village Tax Increment Financing District (PVTIFD)</u> established in June 2010 to account for related revenues and debt service expenditures by this TIFD.

Governmental Funds
Detail and Combining Budget
and Actual Schedules

General Fund

The General Fund is established to account for all resources obtained and used for those services commonly provided by the City which are not accounted for in any other fund. These services include among other items: General government, Public Safety, General Services, Planning and Development, Leisure and Information Services and Human Services. The primary sources of revenue of the general fund are property taxes, unrestricted state revenue sharing grants, certain restricted grants, and fees for services rendered.

Special Revenue Fund

The Parking, Airport, Community Development Engineering Inspection, and Property Management Special Revenue Funds have annually adopted budgets.

Proprietary Funds Combining Financial Statements

NONMAJOR BUSINESS-TYPE FUNDS

PROPRIETARY (ENTERPRISE) FUNDS

Enterprise Funds were established to account for activities that are financed and operated in a manner similar to private business enterprises, where the intent of the governing body is that the activity be self-supporting based on user charges.

The City of Concord has the following Nonmajor Enterprise Funds:

<u>Golf Fund</u> - to account for the operation and maintenance of the City's public golf course.

<u>Arena Fund</u> - to account for the operation and maintenance of the City's public ice arena.

Detail and Combining Budget
and Actual Schedule

PROPRIETARY (ENTERPRISE) FUNDS

The City of Concord has the following Enterprise Funds which have annually adopted budgets:

<u>Water Fund</u> - to account for the operation and maintenance of the City's water lines, pumping stations and plant.

<u>Sewer Fund</u> - to account for the operation and maintenance of the City's sewer lines. pumping stations, and two wastewater treatment plants.

<u>Solid Waste Fund</u> - to account for the collection and disposal of the City's trash. Residential trash collection is handled as a transfer from the general fund and reimbursed through the property tax levy.

<u>Golf Fund</u> - to account for the operation and maintenance of the City's public golf course.

<u>Arena Fund</u> - to account for the operation and maintenance of the City's public ice arena.
